An Important Message

To Mothers of Growing Children

Don't make your children the victims of lifelong foot suffering from incorrect shoes.

Don't let wrong shoes affect their whole physical development.

Defective feet come from wearing badly designed and poorly constructed shoes that are responsible for so many cases of weak ankles, cramped toes, twisted bones and fallen arches.

PIED PIPER HEALTH SHOES are the most healthful shoes in the world for children. They have easy flexibility, 100% foot comfort, splendid fit and give wonderful wear.

We have a complete line of these shoes and can fit feet of any shape—narrow or broad. Prices \$3.50 to \$4.50—according to size.
